

Maintaining the health
of your IT systems.

Voice and data solutions

The Ardent Group is proud to focus on providing professional technology services to the medical industry from all of its divisions based around Cisco's Network Architecture Blueprint.

Each of our business divisions are a group of trained professionals in their own right dedicated to providing the best services and products from their chosen field.

About us

The Ardent Group has over 10 years experience in the IT, voice, networks and cabling industries environment with qualifications ranging from Microsoft to Cisco. We take the time to understand your business requirements and deliver 'No Nonsense' technical advice for your organisation.

Each of our three business divisions can be brought together to provide a high quality end to end service to the medical industry, so whether you need an end to end solution or a solution to a business pain point then at the Ardent Group we can provide professional services from our pool of resources in house.

Our services include:

- Consultancy
- Design
- Planning
- Procurement
- Installation
- Training
- Support & Maintenance
- Business continuity

Contact us now to discuss your IT requirements.
